

BNN MEDIA INTERNSHIP- ENGINEERING

Job Title: Engineering Assistant
Job Grade Level: Intern
Department: Engineering

Hours Per Week: 15 hours a week
Base Pay Rate: Unpaid Part- Time
Contact: interns@bnnmedia.org

Boston Neighborhood Network Media (BNN Media), Boston's community media center, offers public access to cable television channels and low-power FM radio; video production equipment, facilities, training, and production support; and a multimedia computer center. By providing the means of production and a public forum, it invites diverse communities to express themselves and encourages broad-based public dialogue.

About the Position

Engineering Interns will assist in technical and facility troubleshooting; testing, repairing, troubleshooting, maintaining, and installing BNN equipment. Additionally, the work includes work on computer equipment -peripherals, servers, etc., studio cameras and audio boards, studio lighting, sound, and visual display units.

This internship is unpaid, but college credit may be available.

Qualifications:

- General soldering skills
- Minor tech knowledge
- Interest in maintenance and repair of broadcast and IT systems
- Organizational skills

Supervisor:
Dennis Dutra, Chief Engineer
